

Environmental Health & Safety Fact Sheet

Environmental Health & Safety (EHS) is about:

- Operating facilities in a manner that ensures the health and safety of our employees, the environment and our communities
- Driving continuous improvements in environmental protection and occupational health and safety
- Providing customers accurate and up-to-date information on compliance and safe handling of our products

As a manufacturer and supplier of electrical and electronic equipment, we make products that comply with applicable directives on Restriction of the Use of Certain Hazardous Substances in electrical and electronic equipment (RoHS) and Waste Electrical and Electronic Equipment (WEEE).

We supply reagents and consumables that comply with chemical directives and regulations on hazard classification, labeling, packaging and information in the supply chain.

Safety data sheets are available at: <https://www.perkinelmer.com/tools/resourcelibrary#/resources>.

We participate in the following initiatives:

- CDP climate change and water reporting
- ISO 14001 environmental management systems
- ISO 45001 occupational health and safety management systems

CDP Reporting

CDP Climate Change is a reporting system whereby we disclose our greenhouse gas (GHG) emissions and describe our management of climate change risks and opportunities. CDP Water is a similar reporting system for water use and management.

PerkinElmer measures three types of GHG emissions:

- Scope 1: fuel burning
- Scope 2: purchased energy
- Scope 3: business travel.

Greenhouse Gas Emissions in Metric Tonnes

	2016	2017	2018
Scope 1	14,878	11,900	12,751
Scope 2	21,517	21,527	20,844
Scope 1 and 2	36,395	33,427	33,595
Scope 3 business travel	12,378	13,478	14,866

Water Consumption

	2016	2017	2018
Millions of liters	174	164	156
